EDUCATION

BACHELOR OF SCIENCE DEGREE (COMPUTER SCIENCE) – Concentration in Computer Game Development
MINOR IN DATA SCIENCE
University of Calgary (Year 3)
Sept 2023 - Present

HIGH SCHOOL DIPLOMA
Robert Thirsk High School
2020 – 2023

- *Recipient of Alex Rutherford Scholarship*
- *Recipient of Award of Distinction all 3 years*

TECH EXPERTISE

Web Development Frameworks

PostgreSQL and MySQL

Stimulsoft Reports

Python and Django

GitHub and Git

C++ and Unity

Excel

PROFILE

I am a third-year student at the University of Calgary, enrolled in the Computer Science program. I plan to specialize in computer game development, with a minor in data science. I have had experience in leading teams and working in groups. I am skilled with technology in an increasingly technologically dependant world. I am always open to new learning opportunities and work hard to always meet deadlines. I am a dependable team member that can share my ideas in a group as well as provide constructive criticism. What I offer to you as a first-year student studying computer science is a strong problem-solving ability, a solid foundation of teamwork skills and a passion to complete tasks to the highest standard.

EXPERIENCE & ACCOMPLISHMENTS

JUNIOR DATA ANALYST/SCIENTIST
Equinox Engineering Ltd | Calgary, Alberta, Canada | Sept 2024 – Feb 2026

Expanded previous reporting and database responsibilities to include analytics and full stack development. Designed and maintained PostgreSQL functions, views, and stored procedures for internal applications.

- Built and enhanced reporting tools and dashboards to support business decision-making.
- Played a key role in the refactor and enhancement of the company's HR module, improving performance, usability, and maintainability.
- Developed front-end and back-end features as part of an internal enterprise management system.

EXPERIENCE continued

SUMMER STUDENT COMPUTER SCIENCE
Equinox Engineering Ltd | Calgary, Alberta, Canada | May 2024 – Sept 2026

Developed PostgreSQL database functions and queries to support internal reporting and analytics Designed and implemented reusable report templates used across multiple business units

- Gained hands-on experience with enterprise software architecture and database-driven applications Worked closely with stakeholders to translate business requirements into technical solutions
- Collaborated with senior developers to enhance existing data workflows and improve reporting accuracy
- Assisted with debugging, testing, and optimization of SQL procedures

HIGH SCHOOL DIPLOMA
Robert Thirsk High School | Sept 2020 – June 2023

As a student at Robert Thirsk High School, I worked hard to earn top marks and achieve my goal of graduating with distinction and earn the Alex Rutherford Scholarship. This scholarship is given to students that achieve an average of 80% in five courses.

My school highlights...

- ROBERT THIRSK KLUANE LAKE TRIP
  Kluane Lake, Yukon – May 2023
  It was an incredible opportunity to experience a new territory in Canada and learn about the Yukon's rich indigenous history.
- ROBERT THIRSK AP CHEMISTRY TRIP
  Kananaskis, Alberta – May 2022
  Completed year-long research project to explore the scientific method in action and develop real world scientific skill sets.

High School Achievements...

- Exemplary With Distinction Awards in all three years.
- Alexander Rutherford Scholarship in all three years.

PERSONAL DEVELOPMENT

HOCKEY CALGARY LEADERSHIP CONFERENCE
Hockey Calgary – November 2018
Exposed my thinking to new ideas around leadership and teamwork.

CYCLING CHALLENGE
Sponsored By Trek Cycle Corporation – July 2020
Tested my limits to meet a goal in a short time frame. The challenge was to cycle 500 miles in one month which I was very proud to have completed.
