PROFILE

I am a first-year student at the University of Calgary, enrolled in the Computer Science program. I plan to specialize in data visualization and analytics, with a minor in physics. I have had experience in leading teams and working in groups. I am skilled with technology in an increasingly technologically dependant world. I am always open to new learning opportunities and work hard to always meet deadlines. I am a dependable team member that can share my ideas in a group as well as provide constructive criticism. What I offer to you as a first-year student studying computer science is a strong problem-solving ability, a solid foundation of teamwork skills and a passion to complete tasks to the highest standard.

EXPERIENCE & ACCOMPLISHMENTS

HIGH SCHOOL DIPLOMA
Robert Thirsk High School | 2020 – 2023

As a student at Robert Thirsk High School, I worked hard to earn top marks and achieve my goal of graduating with distinction and earn the Alex Rutherford Scholarship. This scholarship is given to students that achieve an average of 80% in five courses.

My school highlights…

- ROBERT THIRSK KLUANE LAKE TRIP
  Kluane Lake, Yukon – May 2023
  It was an incredible opportunity to experience a new territory in Canada and learn about the Yukon's rich indigenous history.
- ROBERT THIRSK AP CHEMISTRY TRIP
  Kananaskis, Alberta – May 2022
  Completed year-long research project to explore the scientific method in action and develop real world scientific skill sets.

High School Achievements…

- Exemplary With Distinction Awards in all three years.
- Alexander Rutherford Scholarship in all three years.

SKILLS

Teamwork in Small and Large Groups
Strong organizational skills

EXPERIENCE continued

TEAM LEADER, LIGHTS & SOUND TEAM

Arbour Lake School | 2019 – 2020

I joined the lights and sound team at my school and progressed my role to team leader in my final year. The crew was responsible for the production of school assemblies and the school play which took place annually. My teachers felt my skill set was best suited to lead the team.

- I attended all meetings for the school play to best understand my task as crew leader.
- I delegated jobs to my team to provide learning experiences for younger students and added responsibility to senior team members.
- I made myself available as a mentor to younger students to be able to ask questions or provide direction.

BACKCOUNTRY CAMP ORGANIZER

Personal Trip | 2023

This was my first ever backcountry camping trip. As one of two organizers I helped...

- Booked tent sites for six campers.
- Made packing lists for the group and delegated responsibilities.
- Made an itinerary for the group.
- Sourced supplies that we would need for trip.
- Organized a bag of first aid supplies for any unforeseen events.
- Drove the group to and from the trail head in Kananaskis.

This trip was a great experience into the Canadian backcountry to remote places most people will not see in their lifetime.

MINOR HOCKEY PLAYER

Crowfoot Hockey | 2010 – 2022

As a minor hockey player for Crowfoot Hockey for twelve years I learned valuable skills such as living a healthy lifestyle as well as teamwork towards a common goal. Minor hockey has given me valuable skills I can take into the workforce.

PERSONAL DEVELOPMENT

HOCKEY CALGARY LEADERSHIP CONFERENCE
Hockey Calgary – November 2018
Exposed my thinking to new ideas around leadership and teamwork.

CYCLING CHALLENGE
Sponsored By Trek Cycle Corporation – July 2020
Tested my limits to meet a goal in a short time frame. The challenge was to cycle 500 miles in one month which I was very proud to have completed.
